

# Capital Advisory Associate

The Capital Advisory team at Karbone is recruiting to expand its fast growing business. We are seeking experienced and highly motivated candidates to join our platform in an entrepreneurial setting focused on the energy & renewable energy sectors. Position details are outlined below:

**Location:** New York, NY  
**Position Type:** Full Time  
**Skill Level:** 3+ years  
**Start Date:** Immediate  
**Apply to:** Please send resumes to [careers@karbone.com](mailto:careers@karbone.com) and mention job title

## Requirements

- Participate in the full deal cycle, interacting with the firm's institutional investors, renewable energy developers and lending firms
- Originate acquisition targets in middle market wind, solar and biomass projects in the US
- Work on deal execution and management, representation of clients collateral development, counterparty analysis, financial modeling, and coordination with external advisors such as lawyers, accounting firms and lending institutions

## Qualifications

- 3+ years of experience in advising renewable energy or similar alternative energy projects
- Past experience working at energy banking and/or private equity in infrastructure, renewable and/or similar assets
- A solid understanding of the capital structures used for these assets, such as equity, debt and tax equity
- Strong accounting, financial modeling and analytical skills
- Excellent writing, proposal preparation and presentation skills

## ABOUT US

Karbone is an award-winning firm specializing in energy and environmental markets. The firm offers integrated **brokerage, capital advisory, and market advisory services** to a wide range of market participants. Our mission is to provide our clients with the necessary intelligence, capital, and access to markets to help them succeed in the new energy economy. From our offices in New York, London, and Istanbul, our range of project experience spans across nearly every relevant energy and environmental market around the globe.
